

Ces Balances ne sont pas équilibrées. Déterminez quel nombre permettra l'équilibre.

Réponses

- A. $F = R + P$
- B. $F = P + R$
- C. $F = R - P$
- D. $F = P - R$

- A. $N = J + J$
- B. $N = J - H$
- C. $N = H + J$
- D. $N = H - J$

- A. $E = H - N$
- B. $E = N - H$
- C. $E = H + N$
- D. $E = N + N$

- A. $K = E - H$
- B. $K = E + H$
- C. $K = H - E$
- D. $K = H + E$

- A. $R = G + E$
- B. $R = G - E$
- C. $R = E - G$
- D. $R = E + G$

- A. $X = R + P$
- B. $X = P - R$
- C. $X = P + P$
- D. $X = R - P$

- A. $X = T + T$
- B. $X = T - P$
- C. $X = P - T$
- D. $X = P + T$

- A. $E = T - J$
- B. $E = J - T$
- C. $E = T + J$
- D. $E = J + T$

- 1. _____
- 2. _____
- 3. _____
- 4. _____
- 5. _____
- 6. _____
- 7. _____
- 8. _____
