

Utilisez la méthode d'addition par décomposition pour résoudre les problèmes.

Réponses

Ex) $359 + 150 = 509$

$9 + 0 = 9$

$50 + 50 = 100$

$300 + 100 = 400$

509

1) $866 - 632 = 234$

6	-	2	=	4
60	-	30	=	30
800	-	600	=	200
				234

2) $79 + 536 = 615$

9 + 6 =	15
70 + 30 =	100
0 + 500 =	500
	615

3) $289 + 393 = 682$

9 +	3 =	12
80 +	90 =	170
200 +	300 =	500
		682

4) $479 + 454 = \underline{933}$

$9 + 4 = 13$

$70 + 50 = 120$

$400 + 400 = \underline{800}$

933

5) $768 - 549 =$ 219

$8 - 9 =$ -1

$60 - 40 =$ 20

$700 - 500 =$ 200

219

6) $908 - 503 = 405$

8	-	3	=	5
0	-	0	=	0

$900 - 500 = 400$

405

7) $163 + 530 = \underline{693}$

$3 + 0 = 3$

$60 + 30 = 90$

$100 + 500 = \underline{600}$

$\quad\quad\quad 693$

8) $218 + 619 = \underline{837}$

$8 + 9 = 17$

$10 + 10 = 20$

$200 + 600 = \underline{800}$

$\underline{837}$

9) $926 - 564 = \underline{362}$

$6 - 4 = 2$

$20 - 60 = -40$

$900 - 500 = \underline{400}$

362

10) $817 - 427 = \underline{390}$

$7 - 7 = 0$

$10 - 20 = -10$

$800 - 400 = \underline{400}$

$\quad \quad \quad 390$

11) $399 + 296 = \underline{695}$

$9 + 6 = 15$

$90 + 90 = 180$

$300 + 200 = \underline{500}$

695

Ex. 509

1. **234**

2. **615**

3. **682**

4. **933**

5. **219**

6. 405

7. **693**

8. **837**

9. **362**

10. **390**

11. **695**
